SUMMARY

Third-year BCA (Science) student at MIT-WPU with an 8.95 CGPA and hands-on experience developing web applications using Python, Flask, PHP, JavaScript and PostgreSQL. Experienced in building database-driven applications and integrating frontend and backend components through academic projects. Currently exploring software quality, cloud computing and machine learning.

EDUCATION

Bachelor of Computer Application (Science)

Aug 2024 – May 2027

MIT World Peace University, Pune

- CGPA: 8.95 | Third Year, Semester 5

TECHNICAL SKILLS

- Languages: Python, C, C++, Java, JavaScript, PHP
- Database: PostgreSQL
- Tools: GitHub, VS Code, Jupyter Notebook, Google Colab
- Web: HTML, CSS, Flask
- Data/ML: NumPy, Pandas, Matplotlib
- Cloud: AWS (Fundamentals)

PROJECTS

Smart Classroom Finder

Feb 2026 – May 2026

Python | Flask | PostgreSQL | JavaScript | HTML/CSS

- Developed a classroom and timetable search web application using Flask and PostgreSQL.
- Implemented authentication, classroom search, administrative features and functional testing.

Daily Quiz App

Jan 2026 – May 2026

Python | Flask | PostgreSQL | JavaScript | HTML/CSS

- Developed a quiz application with subject selection, randomized questions and automatic scoring.
- Implemented PostgreSQL integration, daily streaks and JSON-based backend communication.

Notes Exchange App

Sept 2025 – Dec 2025

PHP | PostgreSQL | JavaScript | HTML/CSS

- Developed a platform for students to upload, share, view and download academic notes.
- Implemented authentication, password reset, profile management and PostgreSQL integration.

TRAINING

Introduction to AWS – DataFlair

Training Program | 2026

LEADERSHIP

Class Representative – MIT-WPU

Second Year
